## 6A. ANSWER THESE QUESTIONS ONLY IF THE PARTICIPANT IS RETIRED AND RECEIVING BENEFITS, OTHERWISE SKIP TO 6B:

I. Percent or Dollar Amount of Employee's monthly retirement benefit to be paid by the Plan to the Alternate Payee?

Dollar Amount: \$

Percent: \_\_\_\_\_ %

- **Option #1: Percent of Total as of the Date of Retirement:** The Alternate payee will receive a percentage of the total accrued benefit as of the Date of Retirement. (This option includes any pre-marital and post-marital credited service).
- Option #2: Percent of the Marital Portion as of the Date of Retirement: The Marital Property Component shall be determined by a fraction, the numerator of which is the number of months of credited service the Employee earned during the marriage and the denominator of which is the total number of months of credited service earned through the Date of Retirement.
- II. Should the Alternate Payee receive a pro-rata share of any Post-retirement Cost of Living Adjustments if offered by the Plan?

\_\_ Yes \_\_\_\_ No

III. Should the Alternate Payee receive a pro-rata share of any Early Retirement Subsidies?

Yes No (Most defined benefit pension plans have early retirement provisions that allow an employee to retire early with full unreduced benefits if they complete a specific number of years of service. By doing this the company is subsidizing a large portion of the employee's pension by eliminating the actuarial adjustment (the difference in the amount of monthly benefit an employee would receive at normal retirement age verses an early retirement age if there is no subsidy - Example: An employee could receive \$1,000 per month at age 65, but if he/she elects to retire at age 55 he/she would receive \$500 per month for life if they had not completed the required number of years of service to receive the unreduced benefit of \$1,000 per month).

IV. Should the Alternate Payee receive a pro-rata share of any early retirement supplements, interim supplements or temporary benefits that become payable to the Participant which are not considered by the Plan Administrator to be a part of the Participant's accrued benefit.?

Yes \_\_\_\_\_No (Most defined benefit pension plans have early retirement incentives that allow certain eligible employee's to retire early with additional supplemental, interim or temporary benefits. Example: If an employee retires at age 55, the plan could pay a supplemental benefit to age 62, at which time the employee would be able to collect Social Security.)
