DOMESTIC RELATIONS ORDER CHECKLIST FOR MISSISSIPPI STATE RETIREMENT SYSTEM PLANS

Option #1: Online - Answer questions at www.qdrodesk.com. Upon completion download the Order immediately. Unlimited Support 1-877-770-2270 (Toll Free) Cost - \$299. Pre-approval with the Plan Administrator may be available for an additional \$100 fee after an analyst in the office completes the free 9-point review process.

Option #2: In House - Complete this checklist and mail it with payment to Pension Appraisers. Our staff will prepare the Order and return it within 7-10 business days. Unlimited Support 1-800-447-0084 (Toll Free). Cost - \$495. You may opt in to our Pre-approval process on the last page for an additional \$75 fee.

Both Options are Supported by Pension Appraisers Staff

ANSWER THESE QUESTIONS ONLY IF THE PARTICIPANT IS RETIRED AND RECEIVING BENEFITS,

6A.

OTHERWISE SKIP TO 6B:

		the Alternate Payee?
		Dollar Amount: \$
		Percent: %
		Option #1: Percent of Total as of the Date of Retirement: The Alternate payee will receive a percentage of the total accrued benefit as of the Date of Retirement. (This option includes any pre-marital and post-marital credited service).
		Option #2: Percent of the Marital Portion as of the Date of Retirement: The Marital Property Component shall be determined by a fraction, the numerator of which is the number of months of credited service the Employee earned during the marriage and the denominator of which is the total number of months of credited service earned through the Date of Retirement.
	II.	Should the Alternate Payee receive a pro-rata share of any Post-retirement Cost of Living Adjustments if offered by the Plan?
		Yes No
	III.	Should the Alternate Payee receive a pro-rata share of any Early Retirement Subsidies?
		Yes (Most defined benefit pension plans have early retirement provisions that allow an employee to retire early with full unreduced benefits if they complete a specific number of years of service. By doing this the company is subsidizing a large portion of the employee's pension by eliminating the actuarial adjustment (the difference in the amount of monthly benefit an employee would receive at normal retirement age verses an early retirement age if there is no subsidy - Example: An employee could receive \$1,000 per month at age 65, but if he/she elects to retire at age 55 he/she would receive \$500 per month for life if they had not completed the required number of years of service to receive the unreduced benefit of \$1,000 per month).
	IV.	Should the Alternate Payee receive a pro-rata share of any early retirement supplements, interim supplements or temporary benefits that become payable to the Participant which are not considered by the Plan Administrator to be a part of the Participant's accrued benefit.?
		Yes No (Most defined benefit pension plans have early retirement incentives that allow certain eligible employee's to retire early with additional supplemental, interim or temporary benefits. Example: If an employee retires at age 55, the plan could pay a supplemental benefit to age 62, at which time the employee would be able to collect Social Security.)
6B.	ANSWER THE	SE QUESTIONS ONLY IF THE PARTICIPANT IS STILL EMPLOYED OR HAS TERMINATED TO BUT IS NOT RECEIVING RETIREMENT BENEFITS, OTHERWISE ANSWER 6A:
	I.	Percent or Dollar Amount of Employee's monthly retirement benefit to be paid by the Plan to the Alternate Payee?
		Dollar Amount: \$
		Percent: %
		Option #1: Percent of Total as of a Specific Date which is The Alternate Payee will receive a percentage of the total accrued benefit as of a Specific Date.
		Option #2: Percent of the Marital Portion as of the Date of Retirement: The Marital Property Component shall be determined by a fraction, the numerator of which is the number of months of credited service the Employee earned during the marriage and the denominator of which is the total number of months of credited service earned through the Date of Retirement.
		Option #3: Percent of the Marital Portion as of the Marriage End Date: The Marital Property Component shall be determined by a fraction, the numerator of which is the number of months of credited service the Employee earned during the marriage and the denominator of which is the total number of months of credited service earned through the Marriage End Date.
		Option #4: Percent of the Marital Portion as of a Specific Date which is Component shall be determined by a fraction, the numerator of which is the number of months of credited service the earned from the Date of Marriage to a Specific Date and the denominator is the total number of months of credited service earned through the Specific Date.
		Option #5: Percent of Total as of Marriage End Date: The Alternate Payee will receive a percentage of the total accrued benefit as of the Date Marriage Ended. (This option includes any pre-marital credited service)
	II.	Should the Alternate Payee receive a pro-rata share of any Post-retirement Cost of Living Adjustments if offered by the Plan?
		Yes No
	III.	Should the Alternate Payee receive a pro-rata share of any Early Retirement Subsidies?
		Yes No (Most defined benefit pension plans have early retirement provisions that allow an employee to retire early with full

Percent or Dollar Amount of Employee's monthly retirement benefit to be paid by the Plan to

unreduced benefits if they complete a specific number of years of service. By doing this the company is subsidizing a large portion of the employee's pension by eliminating the actuarial adjustment (the difference in the amount of monthly benefit an employee would receive at normal retirement age verses an early retirement age if there is no subsidy - Example: An employee could receive \$1,000 per month at age 65, but if he/she elects to retire at age 55 he/she would receive \$500 per month for life if they had not completed the required number of years of service to receive the unreduced benefit of \$1,000 per month).
